

LINERS

Vogue Hung

The hung system is already integrated in the liner during the manufacturing process, you simply have to hang the liner onto the wall by making sure that it is well inserted. Ease of installation and a perfect fit everytime.

Technical specifications

Key features

- Made from pure, high-resistance vinyl created to perfectly fit all shapes and models of Vogue aboveground pools
- Exceptionally solid, reliable joints
- Heat-sealing process – the industry’s most proven assembly technique
- The heat-sealing process provides a 1.27-cm (½-inch) overlap at the seam of the liner, ensuring unbeatable toughness

Our liners are strong, attractive, long-lasting – and totally irresistible! Pool chemicals, harmful solar rays and seasonal temperature peaks are powerless in the face of these high-quality liners.
